## WHY Will You

Put your money into the bank at three per cent interest when you can invest it in real estate and have it net you ten or twelve. We can sell you two houses of six rooms each, both in good repair, one has a small barn, in a good location to rent and does rent for \$11 each, \$22 for both. Price for the two only \$1700. A two tenement house of five rooms each and another building lot on Maple Avenue. This is a good investment, as the price is low.

HERE IS A FARM BARGAIN. . . .

Two hundred acres, only four miles from city on good road, will cut from 50 to 70 tons of hay. Buildings good. Sugar orchard of 600 trees with tools, apple orchard and cider mill. Two to three thousand runs of wood. Can make two trips a day to city easy. Other bargains equally as good.

TENEMENTS TO RENT.

F. B. CATE, Real Estate Agent

## PUBLIC GIFTS IN 1901.

Year Just Closed, a Record Breaker in Donations.

TOTAL REACHED \$123,888,732.

Educational Institutions Received the Largest Part of This Huge Sum. Three Persons Donated Over Half of It—No Record Kept of Bequests Less Than \$1,000.

The Chicago Tribune publishes the following:

The great record of gifts and bequests made in 1900 to colleges, universities, libraries and art museums, which reached \$79,740,956, must give way to 1901. The total of its gifts reaches \$123,888,732. In the preparation of these statistics no record has been kept of bequests less than \$1,000. Of the total amount stated above there has been given to educational institutions \$68,850,901, to charities \$22,217,470, to churches \$6,298,480, to museums and art galleries \$11,133,112 and to libraries \$15,388,732.

The following list includes the sums of \$500,000 and upward contributed by will or gift for various purposes:

Jane L. Stanford, gift to Leland Stanford, Jr., university, \$30,000,000  
Andrew Carnegie, gift for national university, 10,000,000  
Jacob S. Rogers, will, to New York Metropolitan Museum, 8,000,000  
Andrew Carnegie, gift for branch libraries, New York, 5,200,000  
C. L. Magee, will, to charity, 4,500,000  
Andrew Carnegie, gift to Carnegie workingmen, 4,000,000  
Josephine L. Newcombe, will, to Tulane university, 3,000,000  
Lewis Elkin, will, to charity, 2,900,000  
John D. Lankman, will, to charity, 1,500,000  
J. D. Rockefeller, will, to city of Chicago, 1,250,000  
Trustees of Chicago institute, gift to University of Chicago, 1,000,000

Wellesley college 308,745  
Williams college 5,000  
University of Wisconsin 3,245,437  
University of Minnesota 50,000  
University of Michigan 25,000  
University of Pennsylvania 150,000  
Yale 1,699,374

### INSURED FOR A MILLION.

Heirs of Grain King Peavey Will Receive Huge Sum.

One million dollars will shortly be paid by the Mutual Life Insurance company of New York to the heirs of Frank H. Peavey of Minneapolis, a millionaire grain man, who died recently in Chicago of pneumonia, says the New York Herald. Mr. Peavey was fifty-two years old and was credited with being the largest owner of grain elevators in the world. He had been ill only ten days.

On April 28, 1900, Mr. Peavey was insured in the Mutual Life Insurance company for \$1,000,000, taking out a twenty year payment policy. The annual premium was \$48,300, and as Mr. Peavey's death occurred just one year, eight months and two days after the policy was issued only two payments, amounting to \$90,780, had been made. Through Mr. Peavey's death his estate is therefore increased by \$903,220.

Shortly before Mr. Peavey took out the million dollar policy he was examined by a special medical board under the direction of Dr. Grenville M. White, the chief medical director of the company. After a painstaking examination the board reported the applicant in perfect health.

A few weeks ago Mr. Peavey was in New York and visited the home office of the company in Nassau street. One of the officers said that he then appeared to be in the most robust health, being a splendid specimen of physical manhood. In response to a query concerning his health Mr. Peavey replied, "I am enjoying my usual good health and fully anticipate living until the expiration of my million dollar policy in 1920."

Insurance companies rarely assume such large risks upon an individual life. George W. Vanderbilt is known, however, to have a policy for \$1,000,000 in the Mutual. In taking such risks the company always reposes a part of the amount in other companies, thus diminishing its own risk. Foreign companies frequently assume a part of this risk, and by the death of Mr. Peavey several such companies will be called upon to settle their part of the million dollar policy.

In Chicago it was learned that Mr. Peavey, in addition to the million dollar policy, carried \$500,000 on his life in various companies, the policies ranging from \$6,000 to \$20,000. His estate, it is said, is valued at \$10,000,000.

### BOY AIDS ANTHROPOLOGISTS

Indian Lad Found Link Between Navajos and Alaskan Tinnels.

The curiosity of an educated Navajo Indian boy concerning an old tradition of his tribe has led to the discovery that the Navajos of Arizona and the Tinnel Indians of Alaska are branches of the same original tribe, says a Helena (Mont.) dispatch to the New York Journal. This fact is made known by the Rev. Father George de la Motte, superior general of the Jesuit missions in Alaska.

"This discovery was made," said Father de la Motte, "through the curiosity of a young Navajo Indian who had been told a tradition of the tribe handed down from father to son for many generations that the Navajos at one time inhabited a cold country."

"This boy read something in a magazine concerning the Tinnel Indians. The word 'Tinnel' in the Navajo language means 'man.' He became so interested that he wrote to a missionary in Alaska, mentioning a number of Navajo words and their meanings. It was found that the same words and same meanings were found in the Tinnel language."

"Other tribal peculiarities were compared, with the result that it has been established beyond reasonable doubt that the Navajos and Tinnels are offshoots of the same original stock."

This discovery is of immense value and interest to anthropologists and strongly confirms a long believed theory that the American Indians migrated from the north to their hunting grounds on this continent, displacing the original inhabitants of America, and that, furthermore, they originally came from Asia.

### Boers Fought In Their Socks.

Independent accounts of the Boer attacks on Colonel Finner's camp on Gullflee, 24 and 25 to the official story of the one. Hence except that General Buller's force of 1,500 men, as at Mafeking, moved their boots, climbed the Gullflee without noise and completely surprised the sleeping British camp, and a dispatch from London to the New York Herald. The terrible struggle lasted barely half an hour. Three more British officers have died from wounds received in this engagement, making all told nine officers killed.

## A Chance in a Lifetime

to invest on the ground floor with owners, in a developed free milling gold mine that has produced, and has expended on it,

Fifty Thousand Dollars

In development on the ledge and a complete, five stamp mill, with all other machinery necessary to run. The Ozark is not a prospect, but a mine that has produced. We are placing 100,000 shares of development stock at 25c. per share, capital stock 1,000,000 shares (par value \$1.00 each) fully paid and non-assessable, to further develop and put the property on a paying basis.

A property lying near the Ozark, with nowhere as good a showing and very little development, sold last week to a New York syndicate for \$200,000. The Ozark will pay dividends and be worth far inside of six months. This is the best investment for the money that has ever been offered to the investing public. Do not lose this opportunity. It will never come again.

For further particulars, prospectus, report on mine, references, etc., address

Brechin & Co., Fiscal Agents, Room 7, Eastman Bldg, Barre, Vt.

SOUTH BARRE GROCERS.

### A Chinaman's Protest.

The Peking Gazette, speaking of Chinese in foreign lands, says:

"We dress and speak differently from foreigners, just as foreigners do who come to China. But nobody in the streets calls us 'Chinese devils.' The children in the streets wish to see how long our cues are, but the police, seeing them annoy us, scatter them. When we go into a shop to buy anything, we are treated with even more consideration than their own people. We enter their homes, it is the same. They seek to please us in every way, show us curios or play the organ or piano for us. The writer has been to France, England, America, Japan, Spain and South America and stayed years, and everywhere he was treated with the same courtesy."

It is to be feared that some Chinese laundrymen in this country would not wholly endorse this view.

### Light Without Sight.

We can "perceive" light without the smallest aid from the retina. If the optic nerve is sufficiently excited to reach the sensorium and create a disturbance at that center of the brain where the optic nerve terminates, we shall then see light and sparks. If, moreover, the optic nerve is cut or mutilated in any way, we should see a brilliant flash of light, though without any sensation of pain. And so it is with the other nerves. The auditory nerve has only to be excited, not necessarily by sound, so as to reach its center, the brain, and we shall hear a sound. How many ghosts might not be destroyed in this way?—Chambers' Journal.

### The Danish Mascot.

The chimney sweeper is the Danish mascot. You see him in gold or silver, suspended on a lady's watch chain, instead of the "lucky pig" or horseshoe, which is the English symbol of good luck. He also appears on note paper and postcards, implying that your correspondent wishes you a rise in life. It is the old fashioned sweep that is thus depicted—he who had actually to climb a four foot ladder, a short broom and a rope.

### American English.

We do not speak the English language in the way in which it is spoken by the people of England. We have greatly changed, enlarged and perhaps improved it in our usual progressive way. The wonder lies in the notion of Englishmen that their way of speaking the language is the only way and that our way is wrong.—New York World.

### FOR SALE
